### Chicago's Watch-Boxes.

Chicago is ahead of all cities in the Union in one respect, and that is in the employment of what are called "watch-boxes." They have been in use but a very short time, yet they have so demonstrated their utility that people now wonder how they ever got along without them. They are made of wood, are either square or sextagonal in shape, are about three feet in diameter and seven feet high, and are provided with a telephone locked in a box through a slot in which runs a telegraph alarm lever. Each box is provided with a door that is kept securely locked. The square boxes are usually fastened to a telegraph-pole, while the sextagonal or newer form take the place of a lamp-post at the corner of a street, the lamp being placed on its apex. Every member of the police and fire departments is furnished with keys to the doors of the watch-boxes, and also with keys to open the boxes containing the telephones. Any responsible citizen who desires can procure a key to the doors of the watch-boxes upon making application at the police head-quarters. Each key is lettered and numbered, and a register of the names and residences of the parties to whom they are furnished is kept. The boxes' adjuncts are trim-built wagons, each drawn by two good horses. They are stationed at convenient intervals throughout the city. Each wagon is manned by a driver and two policemen.

We will suppose a citizen is passing along the street late at night, when he encounters a gang of drunken roughs who assault him. There is no policeman within call to assist him, so the gang, after pushing and jostling him about, go on their way. The citizen goes to the next corner, takes out his key and opens the door of the watch-box and pulls down the lever of the telegraph alarm. Each watch-box has its number and location recorded, the same as are fire alarm boxes. In less than three minutes, and often in a minute, the wagon is at his side with two policemen to assist him. The citizen meanwhile has his key remaining in the box, for while it throws the lock-bolt back the same motion securely fastens it in the box, and he cannot take it out until it is released by a special key, which is only carried by police and firemen. If the citizen is badly injured the wagon takes him to his home or the hospital, while the police go in search of the ruffians who have molested him. This is only one of the numberless ways in which the box can be made useful. It is also used by the police to have drunken or obstreperous prisoners taken to the station-houses without causing the patrolmen to leave their beats, etc. They not only assist in the capture of criminals, but, by making their capture more easy and certain than formerly, they prevent many of them from committing depredations. In case of riot or time of great need a peculiar alarm is sounded on the engine-house bells, when every policeman in the city goes to the nearest watch box on his beat and receives instantaneous telephone orders, telling him where to go and what to do when he gets there. These watch boxes only cost $100 set up ready for use.

### A Literary Curiosity.

It has not been thought necessary to give the backward as well as the forward reading of the following sentences, save in those in which there seemed some special reason for printing the two versions. In going through the sentences backward, the requisite changes in the punctuation must be understood by the reader:

Dies slowly fading day; winds mournful sigh;
Brightly stars are waking;
Flies owlet, hooting, holding revel high,
Nightly silence breaking.

Breaking silence nightly,
High revel holding, hooting owlet flies;
Waking are stars brightly;
Sigh mournful winds; day, fading slowly, dies.

Adieu, love. Part we must. Stay, oh! stay, said she, weeping piteously. Now, indeed, sorrow is mine. Alas!

Solomon had vast treasures—silver and gold things precious. Happy and rich and wise was he. Faithfully served he God.

Men like fighting, though often beaten are they.

She sits lamenting sadly, often too much alone.

Dear Harry: Devotedly yours remain I. Have you forgotten £20 check? Reply immediately, please, and to yours, Grace Darling.

Darling Grace: Yours to hand; please immediately reply. Check £20, forgotten, you have. I remain yours devotedly, Harry dear.

A DOCTOR'S ADVICE TO A DYSPEPTIC.

Play with work blend, keep warmish feet,
Away drive trouble, slowly eat;
Air pure breathe, and early rise;
Beware excess, take exercise.

Exercise take, excess beware;
Rise early, and breathe pure air;
Eat slowly; trouble drive away;
Feet warmish keep, blend work with play.

Float they gayly side by side,
Pausing, fearing, doubting never;
Laughing, singing, on they glide,
Hope and youth companions ever.

### Blank Book Manufactory and Book Bindery.

Paper ruled to any pattern. Tickets, Receipts, etc., numbered and perforated. Charts and maps mounted. The best classes of modern machinery employed. R. T. WILLIAMS, Government street, entrance through Messrs. Hibben & Co's store. *

OOLACHANS FOR THE MILLION.—Naas River oolachans in small kits for family use, and in half-barrels, will be sold at remarkably low prices by FELL & Co., Family Grocers, Fort street. *

A. GILMORE,
MERCHANT TAILOR,
Johnson Street.

Has just received a large consignment of Spring and Summer Goods direct from the best English and Canadian factories, consisting of Men's and Boy's Suits, Shirts and Drawers of all kinds, Socks, Hats, Caps, Boots and Shoes, Oilskin and Rubber Goods, which will be sold twenty per cent. less than regular prices.

Please call before purchasing elsewhere.

P. S.—Garments made to order in the latest and most approved style. 3m *

DEATH IN THE COFFEE POT.—The public are cautioned against purchasing imported California ground coffee. Its cheapness is its only recommendation. The ingredients are of the vilest description, as anyone using it will discover should he examine the grounds. During the perihelia of the planets people should be careful what they eat and drink. Don't allow your grocer to palm off his trash upon you, because it pays him better to sell it than the good article. Ask for FELL & Co.'s Coffee and take no other. *

DENTISTRY.—Mr. R. B. Thompson, Dentist. Nitrous Oxide Gas (Laughing Gas) administered for the plainless extraction of teeth. Reduced charges for plate work. Office, upstairs in the Old Masonic Building, Government street. Hours, 9 a.m. to 5 p.m. *

NEW KID GLOVES AT A. B. GRAY & Co.'s.—Opening to-day: Ladies' 2, 4 and and 6-button White; Ladies' 4-button Colored; Gentlemen's White; Gentlemen's Lavender and Fancy Colored, and Gentlemen's Black Kid Gloves. Prices right. *

CUSTOMS BLANKS.—Duty blanks with with the new form of oath attached are now on sale at *The Colonist* stationery store. *

HELP Yourselves by making money when a golden chance is offered, thereby always keeping poverty from your door. Those who always take advantage of the good chances for making money that are offered, generally become wealthy, while those who do not improve such chances remain in poverty. We want many men, women, boys and girls to work for us right in their own localities. The business will pay more than ten times ordinary wages. We furnish an expensive outfit and all that you need free. No one who engages fails to make money rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address STINSON & Co., Portland, Maine. ja7dw

NOTICES.

## TO THE PUBLIC.

THE CHINESE RESIDENTS OF VICTORIA ASK a suspension of public opinion respecting the occurrence of yesterday until the case has been heard in the courts. Our people landing from the Quinta were met with a demand for the payment of a school tax. Not being residents they resisted the collector, demanding to be placed on the same footing as white passengers arriving at this port. If violence resulted the officers have themselves to blame. We have engaged the services of legal gentlemen and intend to fight the case. All we ask of the Government here is just and fair treatment, which we intend to have, if we have to carry the case to Ottawa or London. Two years ago we suffered great injustice and have never been compensated for our losses. If the Government have any just tax to collect of Chinese residents they never have to call twice; but we shall not submit to tyranny. It is the shame of all good British men that the laws are so unequally administered and our only hope is in the courts.

## DR. SPINNEY & CO'S DISPENSARY,

No. 11 KEARNEY STREET SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY, would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN
Remember that procrastination is the thief of time, so

COME AND BE HEALED!

It matters not what you troubles may be come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P. S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10 00

# Daily Colonist.

SATURDAY MORNING, JULY 16TH, 1881.

**MR. W. HARRISON**
Is the only person at Yale who is authorized to receive Subscriptions for the DAILY and WEEKLY COLONIST.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

## *COLUMBIA'S STANDING GRIEVANCE.*

The ears of the eastern Grit press are ever strained to catch the murmurings of discontent from the Pacific province; and when they cannot hear of a real grievance they manufacture one for us. According to the average Grit newspaper man British Columbians are discontented, turbulent, quarrelsome "beggars," who, having forced their way into the Dominion, no amount of pampering or benefaction can reduce them to tractability or gratitude, like members of the order of tramps who turn up their noses at the best of viands and decline to discuss broken victuals unless napkins and toothpicks are provided as well. Now, it is quite true that British Columbia has a standing grievance and that she has appealed to the Imperial Government to have that grievance righted. But she neither supplicates, implores, threatens nor begs. She entered the Dominion upon terms of equality with the other provinces—not as a mendicant—nor did she force herself within the sisterhood of provinces as a sturdy tramp invades the household kitchen and clamors for food and drink. Her position is one of comparative independence. She was invited into the union upon terms of the Dominion's own making—terms that were ratified by the Imperial Government as one of the contracting parties. The relation of this province to the Dominion is that of a partner in a mercantile or financial concern. In exchange for certain stipulated advantages and concessions British Columbia surrendered certain important political rights—among them the power to impose a customs duty. After a time, reposing implicit faith in the pledges of the Dominion she further surrendered the right to retain her own tariff until the completion of the overland railway; and since that surrender she has contributed more than her *quota* towards the support of the Federal government. *Per capita*, the payments of British Columbia into the strong box at Ottawa exceed in the ratio of nearly two to one those of any other province. For the year ending 30th June, 1880, the province paid in customs duties alone $140,000, a sum nearly equal to that contributed through the same source by the great province of New Brunswick, to satisfy whose people railways and other works costing an enormous sum have been undertaken and completed by the Dominion government since the date of Confederation. Upon all matters that affect the welfare of the Dominion at large the province has the right to be heard. She enjoys representative government at home, and has nine representatives at Ottawa secured to her under the deed of copartnership. When the affairs of the firm are conducted in a manner that she believes to be prejudicial to her interests she has the right guaranteed to complain, protest and (some very good constitutional lawyers assert) declare the firm dissolved and ask for the appointment of a receiver. We are among those who believe that the time has not come for the adoption of the latter alternative. We earnestly hope that it may never arrive. There is no grievance under which the province labors that is not susceptible of a constitutional remedy *within* the Dominion. Were Mr. BLAKE'S advice to "Go" followed, would not the Dominion receive a receipt in full for the obligations she assumed under the treaty of union? It is not advisable that a receipt should be given in that way. British Columbia has no complaint to make against the National Policy. She believes in the policy of Protection, and is herself preparing to take advantage of the inducements held out for production by extending her present and building new workshops, but she has protested in a very marked manner against the infraction, first, of the original railway terms, which required the completion of the overland railway in ten years from the date of confederation; and second, of the adoption of the time limit of the CARNARVON terms for the benefit of the Syndicate, and the quiet repudiation of clauses of the same terms which, if carried out, would sensibly advantage the province and settle forever its cause of discontent. The non-construction of the Island railway is a standing grievance which will be pressed until justice be done in spite of the brutal insults of the Opposition press of the Dominion. There still remains a little bill of several million dollars, due as compensation for the non-commencement of the Mainland line until seven years after the time stipulated in the original treaty. But were the Island line taken up and prosecuted vigorously to completion we are of opinion that the claim for compensation would be abandoned and the province would soon be found as happy, contented and as prosperous as any other member of the confederation.

## *LIEUT.-GOVERNOR RICHARDS.*

This gentleman will take his departure by the next mail steamer. It is said that his Honor having large interests here will return next year to resume his practice at the bar and to settle permanently amongst us. Five years ago Mr. RICHARDS assumed the office of lieut.-governor, having been appointed by the MACKENZIE government. Prior to coming to British Columbia Mr. RICHARDS was an active liberal politician in Ontario, and it was feared by many that he would use the little power the constitution confers upon a lieut.-governor to hamper and distress local governments who were not of the liberal stripe in politics. We are bound to say that this fear was not realized; but Mr. RICHARDS has been accused of meddling with bills and drawing them for the attorney-general. It has been asserted on very high authority that all, or nearly all, of the many bills of the present government which have met with disaster in the courts or at Ottawa were the production of Mr. RICHARDS' brain. This statement we are inclined to doubt, as the lieut.-governor is not only a very able lawyer in the ordinary acceptation of the term, but a sound constitutional lawyer as well. Besides, under our system the governor is not at all responsible for the government of the country or the preparation of bills. Still the fact remains, that during his term of office a ream or two of acts have either been decided to be unconstitutional in the local courts or have been disallowed at Ottawa. No longer ago than yesterday we had occasion to comment severely upon the failure of another local measure, and we fear that there are other acts which will soon be shown to be equally lame and unworkable. We do not wish to be understood as blaming Mr. RICHARDS in the least for the failure of these measures, for even should the statement that he prepared the lost bills be susceptible of proof, the attorney general is the gentleman whom the country will hold responsible for the failures. Mr. RICHARDS has lived at peace with two governments. Socially, the people have seen little or nothing of him and his amiable family. Government House has not been distinguished for its hospitality during his reign; and the light of the gubernatorial countenance has not shed its rays upon many popular movements of a charitable or beneficial character. Mr. RICHARDS has preferred to lead the quiet life of a private Canadian gentleman to entertaining largely; and when we consider that the local House cut off all the allowances previously voted for the maintenance of Government House, we do not feel inclined to blame him for meeting the members half-way in their desire for economy. The lieut.-governor will, we feel sure, return to private life followed by the good wishes of those who know him best, and who have learned to appreciate his strict integrity, his moral worth and his unswerving devotion to his political and personal friends.

### The Through Boat.

TO THE EDITOR:—Your columns have often advocated the propriety of having a Through boat from Victoria to Yale. Without doubt a Through boat would be a benefit to all in saving detention at New Westminster and in taking freight Through without change of steamboats. The Western Slope claims to be "*the only Through line*" for "*New Westminster, Yale and way ports.*" More than once parties have stood on the wharf at Maple Ridge wanting to go through to Victoria, and calculated doing so on account of the advertisement in your paper, and when the Slope came by she has been signalled, but she went on regardless of the inconvenience such parties have put themselves to in getting there. If such things happen at M. R., without doubt they happen at other places, too. On the way up she also puts passengers to great disadvantage in landing them where they do not want to be landed. Now, if she did not mean to stop at way ports, then in the name of common sense let her advertise accordingly.

SPARTACUS.

### What is Wild Land.

TO THE EDITOR:—I have always considered that land originally prempted, for which a certificate of improvement has been obtained, on which all the instalments have been paid and a large sum of money expended, now held by crown grant and assessed as real estate at $10 per acre, cannot be called and assessed as wild land also. If I am wrong, I should be glad to be set right, if not, I should like to know if the provincial assessor has power to levy such a tax?

Should the assessor have no rule to guide him and be authorized to exercise his functions arbitrarily, ought he not be a person properly qualified to judge of the difference between wild land and land that has been improved?

ENQUIRER.

### The Legal Muddle.

TO THE EDITOR:—In your leader of yesterday there is a slight mistake which, though not materially affecting your comments, it may be as well to correct. The terms upon which the Bank of British North America obtained a stay of execution pending appeal in the Walker case were imposed by the judge, no consent being necessary on Walker's part. Our adversaries took what they could get, and no one can blame them for doing so. The only consent given by them was to a re-hearing before the full court here.

Yours, faithfully,
EDWIN JOHNSON,
Appellants' Solicitor.
Victoria, 15th July, 1881.

AYER'S Hair Vigor, as its name implies, invigorates and strengthens the hair. It not only restores the original color to gray or faded hair, but by its stimulating action at the roots produces a vigorous growth, and gives it that beautiful lustre which results only from a strong, healthy growth of the hair.

IT is wonderful that a subtile miasmatic poison should produce that peculiar condition of the system which prevails when alternate chills and burning heat freeze and scorch the body at regular intervals, and it is no less wonderful that medical skill has been able to reach and expel this poison from the system, as Ayer's Ague Cure always does. *

AERATED SUMMER BEVERAGES.—Soda water, lemonade, ginger beer, fruit drinks, &c., with or without ice.

### Cultured Capitalists.

[Silver Cliff Prospect.]

Mr. Mackay and his father-in-law, Colonel Hungerford, sat side by side in a proscenium box in a Paris theater the other night. They looked complacently over the vast and brilliant assemblage.

"Bong-tong audience!" said Mr. Mackay to Colonel Hungerford.

"Weo!" replied the Colonel to our John."

"Elect—cram 'de la—hoto tong, eh?" quoth John, as his shirt-bosom swelled with conscious pride.

"Wee!" said the Colonel.

The Colonel then shook hands with the Comstock millionaire and congratulated him on his flow of French.

The curtain went up, and one of the stars flashed like a meteor before the spectators.

"Magnifeek!" cried the Colonel.

"Tray bean!" shouted Mr. Mackay.

"Onkoree?" shouted the Colonel.

"Toot sweet!" yelled John.

After the play Mackay drew the Colonel to one side and whispered in his ear: "I don't mind tellin' ye I spake Italian as well as I do Frinch—do you?"

"Yes," replied the Colonel, "I guess we've both been cultured in the same hothouse."

HEALTH, the poor man's riches, and the rich man's bliss, is maintained by the judicious use of Ayer's Sarsaparilla which strengthens and invigorates the system by purifying the blood. It is so highly concentrated that it is the most economical medicine for the purpose that can be used. *

## THE CIRCULATION MATTER IN A PRACTICAL SHAPE.

### TO THE PUBLIC.

In the *Standard* there has appeared for some weeks a notice which claims for that journal "the largest circulation of any newspaper in the province." We have no desire to take part in the controversy that has arisen from the appearance of this card, when we say that it is not true, and that it is put forward by the publishers of the *Standard* for the purpose of deceiving the public. We, having the very best means of knowing the truth, believe that the circulation of *The Colonist* exceeds that of the *Standard* by at least four copies to one; and we agree to forfeit $100 for the benefit of any charitable institution the publisher of the *Standard* may indicate, should we fail to establish, to the satisfaction of the Mayor of Victoria and any two of the Councillors who may be selected by Mr. Smith as a committee, that the *bona fide* circulation of *The Colonist* within the city of Victoria exceeds that of the *Standard* by at least two copies to one. The committee to have full access to the carrier and office books of both newspapers and the carriers of each journal to be allowed to verify the correctness of the lists by a door to door canvass. Affidavits, if required, to be made.

When this proposition has been accepted and decided we shall be prepared to forfeit a similar sum if we fail to prove that the circulation of *The Colonist* within the city limits exceeds that of the *Standard* by at least three copies to one.

These are tremendous odds, but we speak knowingly and are not afraid to meet the issue at any time the *Standard* may see fit to accept the challenge.

Respectfully,
J. E. PARSONS,
JOHN JONES,
City Carriers of *The Colonist*.

# THE RAILWAY.

## TEN THOUSAND TONS OF STEEL RAILS FOR BRITISH COLUMBIA.

The ship Chipman, 1083 tons burden, sailed from Liverpool on the 19th April freighted entirely with steel rails for this province. She is to be followed in quick succession by other vessels, several of which are probably on the way by this time, till 10,000 tons are shipped. The above named ship is consigned to Findlay, Durham & Brodie of this city. Four thousand tons of the rails are destined for the Yale-Savona contract and the remainder for either the Esquimalt-Nanaimo or Port Moody line.

THE performance for the benefit of Mr. John Jaggers will take place on Saturday evening 23rd inst. The object is a very worthy one and there will, we hope, be a large sale of tickets.

SAN FRANCISCO stocks, no change.

# LATEST FROM THE NORTHWEST.

## GREAT CATCH OF SALMON.

### Reliable News from all the Fisheries.

The steamer Otter, Capt. McCulloch, arrived yesterday at noon from Fort Simpson, Inverness on the Skeena, Naas, Alert Bay and other ports. Weather was wet and cloudy during the trip, so much so that the comet was not seen by the people on board till Thursday night.

INVERNESS.

Two thousand three hundred cases of salmon came down from this cannery and 4000 cases were left ready packed for shipment. This company has already canned over 10,000 cases and it is fully expected that by the close of the season 13,000 will have been put up.

WINDSOR CANNERY.

At this cannery 7000 cases had been put up and 5000 more will complete the catch. The steamer Grappler will arrive with 4000 cases on Monday.

NAAS.

The Otter brought down 1500 cases from this establishment. Five hundred more cases are ready for market here. It is quite certain that every can that has been or may be prepared will be filled before the run ceases. At the Naas Harbor Packing Co.'s station an excellent catch had been secured and a large shipment is now ready for the steamer. Mr. Anderson, inspector of fisheries, arrived on the Rocket. Also, Dr. Powell, the Indian commissioner.

ALERT BAY.

The catch on the Nimpkish river, at Alert Bay, has also been a very satisfactory one. Four hundred cases, the first consignment, came down; and there are 1300 cases already in tins but not packed on account of the great number of fish that are being caught. They are exceptionally large and numerous at this establishment and fishing operations are only limited by the number of hands at present employed. This company did not expect to put up more than 3000 cases and this number is probably now ready for shipment. Another 2000 will likely be put up before the season closes. This is a good showing and the success achieved by the spirited proprietors, Messrs. S. A. Spencer and T. Earle, is certainly well merited.

The run of large spring fish is about over and the silver sockeye are now becoming plentiful. Fishermen are expecting a large catch of this excellent variety.

THE WEATHER

Had been cold and stormy up to the 6th inst., when it again set in warm and pleasant.

STEAMER MOVEMENTS.

The steamship California was not sighted or heard of anywhere. H. M. S. Rocket was met at Fort Simpson on Tuesday of last week, which place she left for Wrangel on Saturday. The steamer Grappler followed the latter vessel to Wrangel on Sunday last and was expected back at Inverness on Wednesday. She will be due here about Monday.

## OVER A PRECIPICE!

### A Man Falls 400 Feet and is Dashed to Pieces.

On Thursday another awful accident occurred on the railway works at a point 18 miles from Yale and two miles above the Big Tunnel. A fuse had been lighted and the usual signals were given. The workmen rushed for places of safety along the roadway; but one of them most unaccountably ran to the edge of a steep precipice and threw himself over. He fell 50 feet, then struck a rock, bounding off and falling 350 feet more before he reached the foot. He was picked up as soon as possible; but he was a mass of broken bones and quivering flesh, and in about ten minutes life was extinct. His name was Peter Galloway. Another of the workmen, who remained on the roadway, was struck by a rock and slightly hurt.

## THE INTERIOR.

### Mining and Farming at Lillooet.

A great deal of mining is being done by Chinese on the Fraser river above and below Lillooet. At a location below that town where white men worked many years ago they are said to be making $30 a day to the hand. In several other places they have been making good wages for many months.

Crops were never so heavy before along the Fraser from Lytton all the way up to Quesnellemouth. The prospect for an abundant harvest is excellent. Fruit, likewise, is very plentiful and growers will be puzzled to know what to do with it, as the means of getting produce to the railroad are by no means first-class.

## THE SALMON ENTER THE FRASER.

### Prospects of a Large Catch.

The steamer Western Slope reports the salmon entering Fraser river yesterday in large numbers. All the boats were out and the small steamers dodging about from point to point preparing to freight the product of the net to the canneries for packing. The feeling of the fishermen, farmers and traders were bouyant and a total catch of 160,000 cans, valued at $900,000, is anticipated.

"THE MYSTERY SOLVED."—Under this heading a N. W. *Herald* correspondent professes to explain the reason of Mr. Teague's summary removal and Mr. Dewdney's appointment at Yale. He says that Mr. Dowdney was commissariat of one of the survey parties and that his appointment at Yale made a vacancy in the commissariat which has since been filled by the appointment of Mr. Walkem's brother. This is very disgraceful, if true; but the Yale *Sentinel* declares that it is not true and that Mr. G. A. R. Lambly is Mr. Dowdney's successor. We await particulars.

ARTISTS OFF FOR A CRUISE.—A small company of New York artists, accompanied by Sergeant Bloomfield, who is to act as interpreter and general manager among the Indians, started for a month's cruise by the Wilson G. Hunt yesterday morning. The party will provide themselves with an Indian crew at Nanaimo. They will then proceed to the mainland and coast north till above Fort Rupert; then cross over and do the west coast of the Island. A large number of photographic views and pencil drawings will be made before the party return to this city.

POLICE COURT.—An Indian of convivial habits paid the usual fine yesterday for making to free with ardent spirits. A man named Smith or Brown was charged with vagrancy and remanded for a day for the production of further evidence.

H. M. S. Thetis is fully due from the Sandwich Islands, having arrived at Honolulu some three weeks ago.

# MECHANICS' LIEN.

## IN THE SUPREME COURT.

[Before Mr. Justice Crease.]

Gray, Hoy & Co. and The Royal City Planing Mills Co., limited, plaintiffs, *vs.* Bossi and Valetti, defendants.—Mr. McElmen for defendants; Mr. Bole for plaintiffs.

This was a rule *nisi* to set aside a judgment of the County Court of Yale gained by the plaintiffs against the defendants for $139.47. The defendants had contracted for the construction of a house at Yale, for which work upon completion they paid the contractor. The plaintiffs supplied the contractor with the lumber for the building, and upon his making default in payment plaintiffs sued defendants in the County Court under the Mechanics' Lien Law and recovered. The following judgment was rendered on appeal:—

CREASE, J. It is the first case that has come to me under the Mechanics Lien Act, 1879, and is a matter of some importance both to the laborer and employer. The Act gives privileges and remedies to laborer and supplier which as they impugn upon the common law rights of individual property and the right of freedom of contract require proportionate care in construction.

The object of the Act is clearly good, being to protect the laborer against being defrauded out of his wages by either contractor or land owner, by making such owner and his property liable after certain formalities for his pay. It is a matter of common notoriety within my own personal knowledge that within the last 20 odd years there have been numerous cases where contractors have received all the money for the work and have left the country cheating both laborer and supplier out of their due. This Act is intended to prevent frauds of this description and to some extent it does. The conditions precedent however required by the law before making an owner of property liable to the last penny of the contract for supplies that he never ordered and labor that he never even knew of, much less had any say in fixing a price, are necessarily strict; and where not strictly followed the laborer and supplier lose the exceptional security of the lien law. The workingman's best security, however, consists not in Acts of Parliament but in getting his pay every week or at other short interval, and taking care of it when gotten; and the supplier may safely be left to the general protection of ordinary law, the same as the bootmaker, the grocer, the clothier and others now enjoy. The effort to supercede ordinary care by extraordinary legislation does not always succeed in developing individual prudence or self denial.

The procedure to enforce a lien created under this Act appears to be the ordinary process of the County Court, and by summons and order; and a County Court Judge has under the County Court Acts, especially since the Judicature Act, many of the powers of an equity judge.

Summons and orders properly so called, and in the ordinary use of the phrase, appear to be intended as concurrent and auxiliary to the ordinary county court process, and give it an additional and summary authority which it would not otherwise possess. These enable it to take an account, to ascertain the relative amounts of liens and the like speedily and cheaply, one lien holder under the act being able to sue for all of his own class, no matter of how many it consist, or how large the aggregate amount. With regard to procedure and of debts jurisdiction I am of opinion that the action has been rightly brought. The existence of a concurrent power not in itself antagonistic to a power previously existing does not, without express words, or necessary intendment, repeal that which was previously in force. Much has been said on the effect of section 4. That appears to me clear enough.

A statement of claim may be filed before or during the progress of the work (not of course for labor from day to day, with a new registration every day). That would work an absurdity. The act must be read reasonably and to intend reasonably. The claim must be filed within 30 days from the completion of the work or from the supplying or placing on the ground machinery or materials for use in the work.

The right to register any particular portion of a work where it can be seperated from the rest—as where a contract is let separately—the masonry to a mason, carpentry to a carpenter and so on. Each can register for his part.

Completion of the work may apply in the sense of the completion of the particular work claimed for.

In the case of machinery or materials supplied claims for lien may also be filed; and there the 30 days would mean 30 days after the last delivery of the article supplied or of the machinery. And (it is important to add) no longer; unless kept alive by the commencement of proceedings and the certificate of the fact to the supplier the claim for lien is dead past revival.

Section 8, provides for cases where a lien has already been registered against the land, say by the contractor before the sub-contractor could register his, and is therefore confined to persons furnishing materials to those already claiming a lien under the act and no others. It is in fact a charge on a charge, possibly giving the laborer or supplier (whether of machinery or materials) a remedy against the man who has already got a lien on the land.

The great saving clause of the act to honest owners like Bossi and Valetti who have paid up and have done so honestly and truly without collusion or intending to cheat their workmen who have paid fairly and squarely as the money was due is section 11.

That section provides that all payments up to 90 per cent. of the price to be paid for the work, machinery or materials made in good faith by the owner to the contractor without notice of any lien shall be a discharge *pro tanto*. That is for such 90 per cent. of the lien. But it must not be in fraud of any creditor.

The remaining 10 per cent. of the price in the above case is to be kept subject to the lien for two days after the completion aforesaid or of the delivery of the materials and no longer.

Now in this case there was no notice given to defendants until 24 days after the agitation of it, and there was no receipt for retaining even 10 per cent of the price in hand, as they received no written notice from the lien holders until more than twice 10 days from the completion or delivery had lapsed.

Stress was laid on the fact that here "no express agreement to the contrary "mentioned in Sec. 2 of the act of 1881 as a bar to the mechanics lien—was in existence and therefore the liens would apply. But that could only be where in the arangement between the owner and the contractor it had been specially agreed between the parties that the mechanics lien law should not attack to the building or work then contemplated whether it should be confined to those two or extended, as by publication a notice affixed to the building, where each workman must read or whether there must be a special agreement with each laborer and mechanic as he comes on the ground not to claim any lien, it is not necessary to now to determine. The point is sufficiently clear that the judgment herein must be set aside—and the rule is made absolute accordingly though (at the instance this time) of the defendants and as it is a new case in B. C.) without costs.

HENRY P. PELLEW CREASE.

## The Mendelssohn Quintette Club.

A large house greeted the Quintette Club at Theatre Royal last evening. The concert opened with one of Auber's exquisite overtures by the Quintette, the faultless execution of which elicited loud applause. Miss Nellini's appearance in a scene and air from "La Traviata" by Verdi was the signal for an enthusiastic ovation on the part of the audience. The piece exemplified the great power and compass of this young lady's voice. At its close a magnificent boquet fell at her feet. In response to an enthusiastic *encore* the audience was favored with a charming English song. Then followed a Quartette from Beethoven which, it is scarcely necessary to say, was excellently rendered. Mr. Schnitzler's violin solo on Gypsy Airs by Sarasate was most artistically executed, and the very pronounced *encore* at its close produced another choice piece from this delightful soloist. The second part was introduced with a clarinette fantasie by Mr. Ryan—the composition being his own—which was enthusiastically encored, and although much exertion had been expended by the performer he responded to the call. Pleyel's Hymn, so well known and appreciated by all lovers of music, with the original variations, was then given with exquisite pathos by the quartette. A loud call for its repetition, however, was not responded to. Mr. Giese's violincello fantasie on "O Cara Memoria," from Servais, was so heartily applauded that far advanced as the evening was, an *encore* was insisted on. A perfect gem of a solo was the result, which in no small degree astonished the audience by the extraordinary capacity of this instrument in the hands of such a master. The advent of Miss Nellini in the song "Darby and Joan" again elicited loud applause. While her former artistic effort in Italian brought out very fully the great compass of her vocal powers, this simple and delightful English song brought out the exquisite sweetness of her highly cultured voice. The audience insisted on her reappearance when the "Last Rose of Summer" was rendered in such a manner as to convince the most hypercritical that the lady before him was scarcely second to the great queens of song who have won world wide repute. The flute part in "The Swedish Wedding March" by Soedermann was delightfully prominent in some passages of the last quintette which, as a whole, was perfectly executed. "God save the Queen" finished the evening's programme. Some annoyance must have been experienced by the performers and many in the audience by talking and schuffling of feet, sometimes during the rendition of the most exquisite passages in the music. The effect of those passages was in several instances not a little marred also by inopportune applause when the most perfect stillness should have been maintained. This evening the last concert of the series will be given.

IN COMPARING THE "SWELLHEADS" of the organ to a little boy wearing a man's hat there was no insinuation that the hat necessarily covered brains. A gourd may be abnormally large and yet be hollow; and our contemporary is living evidence that a man may wear a phenomenally large head and still have nothing in it. Had we wished to be personal we should have pictured our contemporary as a certain useful household utensil with the government in the act of sluicing his contents through the columns of the *Standard*. At the Fraser fisheries a can of salmon that bulges at the top is called a "swellhead;" and at first sight is discarded as spoiled, no examination of its internal economy being regarded as either necessary or pleasant. Among newspaper readers a "swellhead" paragraph, such as the *Standard* often affects, is sufficient, without the labor of reading, to condemn the information it contains as decidedly "fishy." The "exclusive cablegrams" which were copied *wholus bolus* from the *Globe* were of the "swellhead" variety and every one knows how worthless they proved to be. As to the complaint of our contemporary that his news is stolen, might he not well exclaim after Shakespeare—"He who steals my 'exclusive cablegrams' and my 'brieflets' steals trash?"

YALE. The *Sentinel* complains of newspaper thieves and borrowers and threatens an exposé.... One of Hill's powder wagons ran away (fact) last week and precipitated itself down a steep bank; no explosion. ....Mr. Howse, Indian agent for Nicola, reports all quiet along the valley....Complaint is made of tardy mail delivery.... Good trout fishing at Yale Creek....Payday has filled Yale with loungers.

MORE TROUBLE AT YALE. — The police force of one at the town of Yale has again shown its inadequateness. Officer Kirkup tried to surround a Chinese camp on Tuesday and collect the school tax, when he was set upon by the inmates and his life threatened and he was compelled to retire. How long will the Government permit this solemn farce of sending one man to face 500 barbarians to continue?

BUYING RAILROADS BY WHOLESALE.—An English corporation has made an offer to the government of Nova Scotia for the entire railway system of the province, which can be taken on certain terms fixed in the charters of the respective roads. The Provincial Legislature will soon be called together to consider the scheme.

H. M. S. TRIUMPH.—Letters from H. M. S. Triumph state that not only is it settled she will not return to Esquimalt during the present year, but that it is extremely doubtful if she will return at all while the present commission lasts.

THE CIRCULATION.—In answer to "Many Anxious Inquirers" we would state that no steps have as yet been taken to accept the offer of *The Colonist* carriers to prove that the circulation of *The Colonist* within the city limits exceeds that of the *Standard* by at least two copies to one.

FROM YALE. — The steamer Western Slope arrived from Yale at 5.30 yesterday afternoon with about 60 passengers. She made ten landings coming down the Fraser.

QUICKEST TIME.—By the Geo. E. Starr's mail on Thursday San Francisco newspapers only four days old were received here.

## Accidents at Yale.

[Special Despatch to Colonist.]

YALE, July 15.

Yesterday at No. Ten camp M. Cahill got very seriously injured about the head by the premature discharge of a blast which he was tamping.

Engineer Tilton and Mrs. Onderdonk while out driving last evening were thrown from their buggy but fortunately escaped without any serious injury. Mrs. Onderdonk is slightly bruised and has an ankle sprained.

## Marine.

The barque Doxford, from Liverpool with a general cargo and consigned to Welch, Rithet & Co., will be due here next month, and the barque Chiloe, also to the same firm with general merchandise, will be due in September.

Barque Don Nicolas, lumber laden, is in Esquimalt harbor.

Ship Lady Bowen, lumber laden, was towed to sea last night by the Alexander.

## Time Limit for Construction.

It is not generally known that the time-limit for the construction of the Canadian Pacific railway as stipulated in the original terms of union will expire on the 21st inst. — next Thursday. The province joined the Dominion on the 21st of July, 1871, the Dominion government having bound themselves to build the line through from ocean to ocean in ten years from that date.

H. M. S. GANNET.—The officers of her Majesty's ship Gannet issued invitations for a picnic at Langford lake yesterday. The attendance was very large and the participants enjoyed themselves thoroughly.

UNRIPE FRUIT.—Parents would do well, especially as scarlet fever is about, to be particularly careful that children do not eat green unripe fruit, as nothing has a greater tendency to aggravate if not to superinduce the above disease.

A DANGEROUS HOLE in the cover of the cistern at the corner of Fort and Government streets was developed yesterday and speedily mended by order of the corporation.

CANADA LETTER MAIL.—Toronto papers to the 2d of July and no letters since the 24th June. Somewhere between Canada and this place there must loiter a large number of letters. Dates should be closed by to-day's overland mail.

MR. CORNWALL, the newly-appointed lieut.-governor, is expected to reach Victoria on Wednesday next.

ROAD TOLLS.—From the 5th to the 12th July, 135,462 pounds of freight passed Yale tollhouse.

MR. CHARLES VILLARD telegraphs that he will arrive at Victoria about the middle of August.

DISSOLVING VIEW—The comet.

DUCK SHOOTING began yesterday.

## Hear! Hear! Hear!

The Fort Street Machine man again advertises that he has received a shipment of Genuine Singers. Why, the idiotic fellow has not and never did have a Genuine Singer in his shop, for they are only sold by responsible parties. Selling bogus Singers, thereby deluding the public, doctoring machines with emery powder, cutting and scraping others, is more clearly his occupation than dealing with the original and genuine Singer, whose agents are responsible men wholly unused to such tricks. The man's last trick of a short time ago was cutting and disfiguring two of the genuine Singers on their way to Nanaimo for which the captain of the boat was going to give him a flying leap overboard. The man's conscience smote him and he delivered a short prayer for forgiveness of his past sins and tricks and prayed for mercy when the captain suspended the rod of justice. What machine does he want now? A new one by the next full moon when his idiotic spells take him? Himself and his machines are played out in Victoria and elsewhere and he is now trying to pass inferior secondhand articles on the public of Victoria and vicinity; but it won't do, for he is too well known. Don't let him dupe you. As he tried to do with the Chinaman tailor in Nanaimo by ruining two of his Raymond machines in order to foist one of his inferior counterfeits upon him; but did not succeed.

You can only get the GENUINE NEW YORK SINGER SEWING MACHINE from W. H. ADAMS, the only authorized agent for British Columbia. 1m*

ORDERS FOR PIANO TUNING should be left at M. W. WAITT & Co.'s before the 15th of this month as Prof. A. L. FRANCIS leaves at that date for a few weeks to fill engagements in New Westminster, Nanaimo and Yale. *

## ANOTHER SHIPMENT OF THE GENUINE SINGER.

### PRICE, $35, NOT $65

The public require no caution from a used up opposition agent. These machines are rapidly finding a place in families as the best Singer machines (and they are THE best) ever imported into the Provinc. Their two extensive Factories, considered to be the largest and most complete in the world, enable the manufacturers to place those machines before the public upon their merits as the most perfect of all Singers and at a reasonable price. Send your orders direct to headquarters. *Price, $35 with attachments.*

N. B.—No other Singer gives as long a guarantee. T. W. FLETCHER, Fort st.

To arrive in a few days a large shipment of the world-renowned Wanzers. *

## THE HUMAN HAIR.

### How to Preserve and Beautify it.

Many persons abuse this delicate and beautiful ornament by burning it with *alcoholic washes*, and plastering it with grease, which has no affirmative for the skin, and it is not absorbed. BURNETT'S COCOAINE, a compound of Cocoanut Oil, etc., is unrivalled as a dressing for the hair—is readily absorbed, and is peculiarly adapted to its various conditions, preventing its falling off and promoting its healthy growth.

Housekeepers should insist upon obtaining BURNETT'S FLAVORING EXTRACTS, *for they are the best.*

### GRAND MILITARY REVIEW IN PARIS.

### UNFAIR TREATMENT OF AN AMERICAN CREW.

EASTERN STATES.

EXECUTIVE MANSION, July 15, 7 a. m.—Dr. Bliss reports this morning that the president enjoyed a quiet night's rest and that he looks bright and feels cheerful. His temperature at this hour he thinks is about normal and his pulse about 90.

SANDWICH ISLANDS.

SAN FRANCISCO, July 15.—Charles Coffin Harris, chief justice of Hawaii, is dead.

ENGLAND.

LONDON, July 15.—Percy Lefroy, Mapleton, *alias* Arthur Lefroy, who is charged with the murder of Mr. Gould on the London and Brighton railway, will be brought before the magistrate of East Grimsted, Sussex, to-morrow, for examination on remand. The criminal investigation department has had its best men at work and the circumstantial evidence against the prisoner is perfect. It will be shown that he learned of Mr. Gould's circumstances from the latter's sister and was aware that he had gone to London on the morning of the murder to draw money from his banker. That morning Lefroy passed off three Hanovorian sovereigns upon a shop boy in a stationery shop at Wellington and a number of coins of the same kind were found in the compartment where the murder was committed. Mr. Gould's watch and a portion of the chain were seen in Lefroy's possession when he got off the train at Preston Park platform and said he had been attacked in the railway carriage. It is understood the police have traced the watch direct from Lefroy to a pawnshop in Stepney, near the lodging house where he concealed himself. Then comes the circumstances of his flight from his cousin's house where, on the evening of the murder, he went to change his clothes, leaving the officer who accompanied him outside; of his concealment and attempt to disguise himself in the Stepney lodging house. Lefroy's relations are highly respectable people, but they had disowned him for some time prior to the murder. The Crown will have to provide counsel for the defence when the trial comes up at the winter assizes. The defence will probably be insanity. The prisoner's grandfather died in a madhouse at Malta. His relatives and other associates on the *Era* and other journals for which he was a penny-a-liner look upon him as more rogue than fool.

NEW YORK, July 15.—The London *Daily News* this a.m. devotes an editorial to the remark that the Americans had almost given up the idea of receiving fair play in sporting interests. The *News* says there was disgraceful lobbing at Birmingham, but thinks it rather hard to make the conduct of rogues at a running match the test for preaching down fair play. The *News* comments very good naturedly and admits that Heenan was interfered with when he had nearly strangled Sayers and doubts whether he received fair play in his match with King, but urges that Iroquois was not mobbed at the Derby. It must be admitted that in horse racing Americans' victories have received most courteous acknowledgment; but even the *News* does not attempt to excuse either rogues at Birmingham or the Henly regatta committee for the fouling of the Cornell crew.

FRANCE.

NEW YORK, July 15.—The *Herald's* Paris special says:—Paris has to-day been entirely absorbed by the celebration of the National fete, the second since its decree by the French legislature. The review at Longchamps, though less important than on some former occasion, was a great success. About 17,000 troops were under arms, and without exception the marching and bearing of the men were most creditable. At 2 o'clock President Grevy drove up to his pavillion escorted by a detachment of cavalry and closely followed by General Farrow, who was attended by a brilliant cortege of foreign military attachés. The heat was terrible and unfortunately caused several accidents. I saw no less than five soldiers carried off the ground, victims of sunstroke; but some idea of the weather may be obtained when I say that in the middle of the month grass on the fields took fire and had to be extinguished by pompiers. Apart from these accidents everything passed off satisfactorily. Among the celebrities in the president's box I noticed M. Gambetta and M. Jules Ferry.

THE FIRE-PROOF CHAMPION PORTABLE SAWMILL

George ... writes, St. Anns, Ontario, June 17, 1879, regarding his 16 horse-power Champion Sawmill: "*Last week, on Monday morning, three men of us commenced to tear up mill to move it. We tore up, moved three miles, set it up and on Tuesday at three o'clock sawed a log with it. Not quite two days. In one week we moved and set it up as mentioned, and sawed twenty thousand feet. I will write full particulars soon. We sawed six hundred feet in twenty-nine minutes—inch lumber.*"

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. See *Times*, July, 12, 1864.
The Public, therefore, are cautioned against using any other than

**DR. J. COLLIS BROWNE'S CHLORODYNE.**

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

**CHLORODYNE** is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

**CHLORODYNE** the best remedy known for coughs, consumption, bronchitis, asthma.

**CHLORODYNE** effectually checks and arrests those too often fatal diseases diphtheria, fever, croup, ague.

**CHLORODYNE** acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

**CHLORODYNE** effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

**CHLORODYNE** is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE. *See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (December, 1865) that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.
